Leadership and Trainings

Unite the World with Africa Foundation (UNITE) | Dar es Salaam

Food Program Business Management and Bookkeeping

June 2021

Learned the fundamentals of business management and bookkeeping, including the importance of financial planning and budgeting for a sustainable food program

Youth Ambassador Program - Participant

Engaged in a global initiative that linked Tanzania students with counterparts at American universities, cultivating enduring relationships while exploring shared academic, cultural, and creative interests amidst the COVID-19 pandemic.

Mentorship Program - Unite Scholar

Jan – Oct 2020

Collaborated with a dedicated mentor who provided guidance and support in personal and academic development, working together on various projects, including career planning, academic goal setting, and community engagement.

Blessing campaign during Covid-19 crisis | Morogoro

April 2020

Learned about the significant impact of the pandemic on vulnerable communities. Gained valuable insights into effective strategies for providing aid and support during a crisis, including the importance of community engagement and collaboration.

Sega Girls' Secondary School

Basic Entrepreneurship and Business Skill Training Program

June 2018

Collaborated with fellow aspiring entrepreneurs to develop business ideas and learn essential business skills through a program that covered a wide range of topics, including market research, financial management, and effective communication.

Tanzania Skills Empowerment

Sept 2, 2016

Collaborated with other young people to develop valuable skills and knowledge through a program focused on vocational training and life skills development, empowering participants with the tools needed to succeed in the workforce. Hands-on workshops and mentorship provided practical skills in areas such as carpentry, tailoring, and computer literacy.

Health Management, Leadership & Governance | CEDHA, Arusha

Jul, 24 – Aug 4, 2023

Attended training organized by CEDHA about best practices in health management, leadership, and governance. Learned innovative strategies to enhanced healthcare delivery and improved professional practice.

5th Annual Stem Boot Camp | Tanga

Dec 28, 2020- Jan 1, 2021

Learned about various aspects of STEM (Science, Technology, Engineering, and Mathematics) including coding, robotics, and scientific experimentation. Worked on hands-on projects and collaborated with other participants to further develop problem-solving and critical thinking skills.
